

premium **Bennett**

BENNETT is continuously striving to improve its products. We just developed a new production process for *wedge guides* and *pushers* which renders these parts more *wear-resistant*, notably increasing their *durability*.

www.bennettinternacional.com

Characteristics:

- Extremely hard (500 - 1000 HV).**
- High abrasive resistance.**
- High fatigue strength.**
- Remarkably corrosion-proof.**

Composite Layer
($\approx 20 \mu\text{m}$)

Diffusion layer
($\approx 0,25 \text{ mm}$)
